

## Message from Chairperson

Dear students

It gives me immense pleasure to welcome you for the new session. It is unfortunate that I cannot meet you in person. Last year, when the lockdown began, it was such a huge opportunity to explore and try new things and hobbies. But after a year, we still find ourselves at home. I know times have gotten even more difficult and return to normalcy is still not in sight but difficult times are a gift. They make us better and stronger.

You begin with your new session from 5<sup>th</sup> April.

April is a special month. Not only because it marks a new beginning for all of you but also because it's the season of Spring. A season when nature all around you is blossoming with colorful flowers and freshness despite the circumstances. Nobody can stop the spring from arriving.

Take inspiration from nature. Be like the spring. Circumstances should not stop you from achieving your goals, being happy and blossoming into a healthy individual.

Having a purpose in your life is enough to make you thrive in this world in any circumstances. Have you thought, what is your purpose in life?

Begin this new session with the aim of finding your purpose and plan how you will fulfill it. Rest everything will fall into place. Your teachers, parents and the school will always stand by you and support you in your journey.

God Bless
